

West Newton Bridge Closing

Detour Map and Directions

You may still access West Newton's downtown (East Side) by traveling west on Route 31 or south on Route 136, but you must follow the detours below to access the Great Allegheny Passage or West Newton's west side. The same situation applies to reverse your position.

To the Great Allegheny Passage West Newton Access Area (or West Side) from Route 70: Bypass the West Newton Exit and go to the Route 51 (Uniontown/Pittsburgh) Exit towards Pittsburgh. You may exit Route 51 via Vernon Drive or Route 201 merging onto Route 136 into West Newton. Detour takes about 10 minutes. Reverse directions to access downtown.

To the Great Allegheny Passage West Newton Access Area (or West Side) from Route 136: At the crossroad, turn left onto Route 31, then right onto Motor Drome Road and follow it to the Route 70 East entrance towards Washington, Pa. Then take the Route 51 (Uniontown/Pittsburgh) Exit towards Pittsburgh. You may exit Route 51 via Vernon Drive or Route 201 and merge onto Route 136 into West Newton. Detour takes about 15 minutes. Reverse directions to access downtown.

To the Great Allegheny Passage West Newton Access Area or West Side from Downtown West Newton: You may take East Main Street to Route 31 West, then turn right onto Motor Drome Road to the entrance onto Route 70 East towards Washington, Pa. and take the Route 51 (Uniontown/Pittsburgh) Exit towards Pittsburgh. You may exit Route 51 via Vernon Drive or Route 201 into West Newton. Detour takes about 15 minutes. Reverse directions to access downtown.

Sutersville Option to the Great Allegheny Passage West Newton Access Area or West Side from Downtown West Newton: From East Main Street, take North Water Street to Sutersville Road into Sutersville and jog left onto First Avenue. Turn left onto First Street and cross the bridge. Bear left onto Douglas Run Road. Then turn left onto Long Hollow Road. Turn left again onto Route 136 towards West Newton's west side. Reverse directions to access downtown.
